1. General information about the EMINENCE II project

EMINENCE II is a partnership of European and Eastern Partnership (EaP) universities selected under Erasmus Mundus Action II, which manages a scholarship programme funded by the European Commission. The project awards scholarships:

- for studying at European Partner universities to students from Ukraine, Moldova, Belarus, Georgia, Azerbaijan and Armenia on Bachelor, Master, Doctoral and Post-doctoral level and for staff mobilities for 2014-2017 and
- for students and staff from EU Partner universities for mobility to EaP partners.

The Erasmus Mundus programme aims to enhance the quality of higher education and promote dialogue and understanding between people and cultures through mobility and academic cooperation. The EMINENCE II project operates within so called Action 2: Partnerships with Third Country higher education institutions and scholarships for mobility, which gives support to:

- higher education institutions that wish to set-up inter-institutional cooperation partnerships between universities from Europe and targeted Third-Countries;
- individual students, researchers and university staff who wish to spend a study / research / teaching period in one of the universities included in partnerships.

The objectives of EMINENCE II Partnership are:

- to develop abroad the qualifications of most motivated and talented students and staff and give them international experience, increasing this way their employability at labour market;
- to promote mobility of Eastern Partnership countries’ students from vulnerable groups in order to obtain qualifications and experience in the EU partner universities;
- to contribute towards the development of human resources and the international co-operation capacity of higher education institutions in Eastern neighbouring countries through individual mobility, which should not bring only individual benefits but also effect home university and society as a whole;
- to enhance visibility of EU higher education in Eastern neighbouring countries in general and to facilitate integration into the European Higher Education Area and Bologna process of involved HEIs in this region in particular
- to create and strengthen lasting links and collaborations between participating HEIs from EU and Eastern neighbouring countries’ that will result in actions and activities after the funding period;
- to contribute to the mutual enrichment of both EU and Eastern neighbouring countries’ societies by exchange of people, culture, knowledge and ideas.

The EMINENCE II partnership will offer up to 155 scholarships for 3 types of candidates – students classified as Target Group 1, 2 and 3 and staff in the framework of TG 1 (about classification to target groups read at section 3).
